

Web API Status Report

Paul Stusiak, President, Falcon Technologies
Sergio Del Rio, Managing Partner and CIO,
Templates for Business Inc.

2017  **RESO™ TECHNOLOGY SUMMIT**
ORCHESTRATING COLLABORATION & INNOVATION

Web API - What's new - 1

- Version 1.0.3 nearing completion
 - Corrections
 - Clarifications
 - Change proposals 001 - 009, 013
 - Use current RFC standards
 - Annotations/Data Dictionary Mapping
 - Enumerations
 - Adding Certification Tests

Web API - What's new - 2

- Current focus is adding Web API Update
- Change Proposal WEBAPI-010
 - <http://members.reso.org/display/RESOWebAPIRCP/RCP+--+WEBAPI-010+Add+Update+Functionality+to+Web+API+Specification>
- Part of Version 1.0.4
- Separate Certification
- Version 1.0.4 is scheduled for 2017
 - Need your resources to help it happen

Web API - Update Transaction -

1

- General Business cases
 - Add/Edit Listing Records - generalize to all resources
 - Add/Edit/Reorder Media - generalize to all child resources
 - Partial Record
 - Record reassignment - more discussion needed

Web API - Update Transaction -

2

- February In-Person - Priorities
 - Basic Use Cases
 - No business rules in standard
 - Open questions that need research
- April - Priorities
 - Odata support for Update

Web API - Update Transaction -

3

- Most Use Cases covered by OData
- Tiered Resources need documenting
 - City/State
 - City/Zip
 - School District/City
- Some additional narrowing of OData for clarity
 - Media (Child records)
 - Partial Record

Web API - Update Transaction -

4

- Photo Order - to document
- Version management - to document
- Minor changes in Data Dictionary may be required to fix issues

Web API - Update Transaction -

5

- Still have several open issues to resolve
 - OData field validation support
- Lot of work still needed to complete standard
- Call for Volunteers
